KNOWLEDGE FOR LIFE

Introduction

- **subscription-based, dynamic front file**
building forward from 2008 – over 130 books
- **one-off purchase back file archives for perpetual ownership**
2000 – 2004, 244 titles
2005 – 2008, 158 titles
- **series of subject collections allowing flexibility**
21 subject collections
- **custom 100 collection**
create your own unique collections of up to 100 titles
- **Individual eBooks purchases**
via Google bookshop, Amazon, ebrary, Ingram Digital, Mylibrary

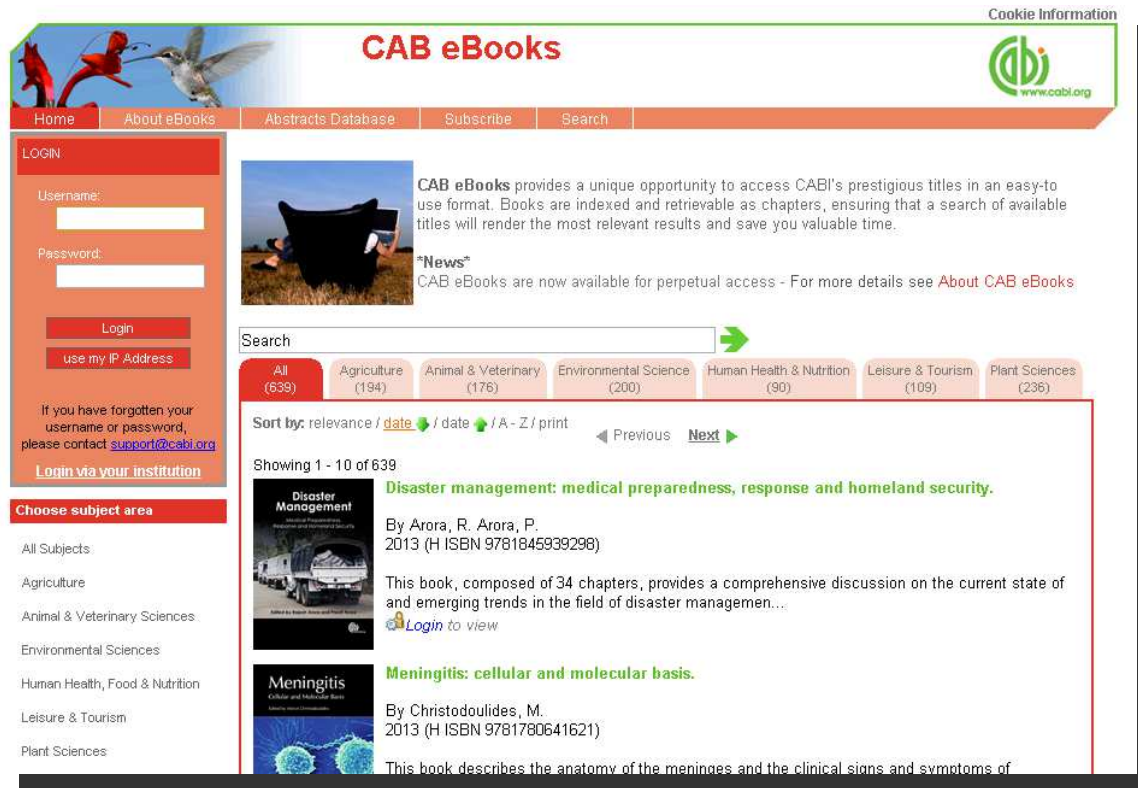

Unique Features

- **full range of academic literature**
Academic Monographs, textbooks
- **subject coverage**
fully complementary to CAB Abstracts
- **hosted on CAB Direct**
complementary access to CAB Direct platform
- **compatible platform for usage statistics**
supports the latest Counter4 statistics package
- **dynamic front file**
new published titles included during the subscription period
- **full books and chapters indexing**
individual chapter downloads available
- **eBooks displayed as a PDF**
no DRM software restrictions

Training agenda

- Simple searching and navigating the eBooks platform
- Advanced searching on CAB Direct
- MARC records and MyCABDirect features
- Q&A

CAB eBooks platform

The screenshot shows the CAB eBooks website interface. At the top, there is a navigation bar with links for Home, About eBooks, Abstracts Database, Subscribe, and Search. A 'Cookie Information' link is also present. The main content area features a login form on the left, a search bar, and a list of subject categories. The search results display two books: 'Disaster management: medical preparedness, response and homeland security' by Arora, R. Arora, P. (2013) and 'Meningitis: cellular and molecular basis' by Christodoulides, M. (2013).

Rural women in leadership: positive factors for leadership development.

McVay, L. A.

2013 CABI (H ISBN 9781780641607)

The study presented in this book was undertaken as a means of ascertaining the key factors facilitating the development and acquisition of leadership skills among women leaders from rural areas of Northern Ireland. Two secondary questions guided the research design. First, what people, organizations and/or events supported these women's development and acquisition of leadership skills? And, secondly, what thought processes and choices did they exercise in order to overcome obstacles in their development as leaders? It is hoped that this book will be useful in both responding to and generating questions regarding the position of rural women in society and organizations, and that the findings will be of use to policy makers concerned with supporting leadership development among rural women.

Inform

In 2010 [CABI](#) celebrated 100 years of publishing expertise in the applied life sciences. Behind CAB Direct sits an exceptional team of experts, working hard to keep up-to-date on the latest research, and ensuring even the most hard-to-find material makes its way onto our database. Our technology partners Semanticco and our product development and IT teams are passionate about information delivery. We like to ensure that our information is as accessible as possible, on platforms that are easy and interesting to use and we are continually improving CAB Direct in response to customer feedback.

★ **1 Microalgae: a renewable source of bioproducts.** Blackburn, S. I.; Volkman, J. K.; Dunford, N. T.; John Wiley & Sons, Chichester, UK, **Food and industrial bioproducts and bioprocessing**, 2012, pp 221-241, many ref.

[View Abstract](#) »

★ **2 Considering water availability and wastewater resources in the development of algal bio-oil.** Chiu, Y. W.; Wu, M.; Wiley-Blackwell, Chichester, UK, **Biofuels, Bioproducts & Biorefining**, 2013, 7, 4, pp 406-415, 54 ref.

This study aims to quantify water appropriation and the potential production of algal bio-oil using freshwater and municipal wastewater effluent (MWW) as an alternative water resource. The county-level analysis focuses on open-pond algae cultivation systems located in 17 states in the southern United States. Several scenarios were developed to examine the water availability for algae bio-oil produ...

★ **1 Microalgae: a renewable source of bioproducts.** Blackburn, S. I.; Volkman, J. K.; Dunford, N. T.; John Wiley & Sons, Chichester, UK, **Food and industrial bioproducts and bioprocessing**, 2012, pp 221-241, many ref.

[View Abstract](#) »

★ **2 Biofuel from microalgae: myth versus reality.** Jubilee Purkayastha; Gogoi, H. K.; Lokendra Singh; Vijay Veer; Rajesh Arora; CABI, Wallingford, UK, **Microbial biotechnology: energy and environment**, 2012, pp 240-249, many ref.

This chapter discusses the potential of using algae for biodiesel production, present perspective of promoting microalgal fuel, as well as the economics of microalgal fuel. Methods for the mass cultivation of microalgae are also presented.

★ **3 Status, innovations and challenges of next generation biofuel technologies.** Sims, R. E. H.; Singh, B. P.; CABI, Wallingford, UK, **Biofuel crops: production, physiology and genetics**, 2013, pp 23-43, 16 ref.

This chapter examines the current state of the art, the production costs, the supporting policies and the challenges for advanced biofuel technologies and practices. The chapter discusses the production of ethanol, biodiesel, and other liquid and gaseous biofuels, including: algal biofuels
